WATERFALL CARD

STEP 1 // Die-cut the pieces needed to construct your waterfall (base, tab, 5 panels, 5 mats).

STEP 2 // Mountain fold the score lines on your base piece.

STEP 3 // Fold the base piece in half, and glue each of the 5 panels just below each of the 5 score lines.

STEP 4 // Mountain fold the tab, and wrap it around the bottom of the base. Glue the bottom of the folded base to the top of the tab.

STEP 5 // Flip, and apply glue to the two back tabs only. Glue onto your card base or Precious Memories book page.

MINI POCKET AND ACCESSORIES SET

STEP 1 // Die-cut the Mini Pocket piece and matching tag.

STEP 2 // Fold and burnish the score lines, fold the 3 pocket tabs to the back, and glue by overlapping the two longer back tabs.

STEP 3 // Glue your die-cut Mini Pocket to your project or Precious Memories album page.

STEP 4 // For the larger pocket, cut a piece of card to measure 6”x4”, and cut the large pocket die across the top of the panel. Glue this to your project on 3 sides, leaving the top open.

STEP 5 // To create the perforated pocket, cut a piece of card to measure 5.5”x3.5”. Cut the perforated die in the centre of this piece of card. Place your secret message on the card base or Precious Memories album page, glue around all 4 edges on the back of the die-cut piece, and place over the top of the message to hide it, ready for its reveal.

TO USE THE CURVE-EDGED DIE FOR YOUR PRECIOUS MEMORIES ALBUM PAGE OR CARD BASE, THE WIDTH OF THE CARD YOU USE WILL NEED TO MEASURE 4”.

YOU CAN STACK THE MINI POCKETS ON TOP OF EACH OTHER BY ADDING GLUE TO THE CENTRE OF THE BACK OF EACH POCKET AND ATTACHING THE POCKETS TOGETHER TO CREATE A CONCERTINA EFFECT.
**TABBED PAGE AND PURSE CARD**

**STEP 1** // Fold a piece of lightweight card or paper in half. Place the purse base die on the fold of the card, being careful to place the side of the die without a cut edge against the fold. Die-cut using your die-cutting machine.

**STEP 2** // Die-cut the purse sides, and fold and burnish all of the score lines to create a concertina effect. Die-cut the purse flap, and fold and burnish the top score line.

**STEP 3** // Lay the purse piece open and face down, and apply glue to the 4 short edges. Place the purse sides one on each side of the purse base, with the centre mountain fold point in the middle of the purse. Fold the purse base closed on top of the purse sides.

**STEP 4** // Glue the purse flap to the back of the purse base.

**STEP 5** // Glue the completed purse inside your project or onto your Precious Memories album page.

---

**MINI CARD AND ENVELOPE**

**STEP 1** // Die-cut the envelope, card base, and envelope closure tab. Ensure that you place the side of the die without a cut edge against the fold when cutting the Mini Card base.

**STEP 2** // Fold and burnish all of the score lines on the envelope. Glue the closure tab to the back of the top of the envelope, and thread through the die cut hole in the top.

**STEP 3** // Glue the mini card inside the envelope.

**STEP 4** // Glue the completed envelope inside your project or on your Precious Memories album page.

---

**USE SMALL CRAFT MAGNETS TO KEEP THE ENVELOPE FLAP CLOSED.**
ALBUM SPINE

STEP 1 // Die-cut the Album Spine die from heavyweight cardstock. Fold and burnish all of the score lines.

STEP 2 // The embossed crosses on the spine indicate where you will glue to create the spine.

STEP 3 // Working from left to right, place a line of glue on the first line of embossed crosses, fold this over to meet the 2nd line of embossed crosses. Repeat this for the rest of the spine, this will create an album spine with 6 individual page tabs.

STEP 4 // Cut your album pages to measure 4” x 6” and glue to either side of each tab, sandwiching the tab between the pages. This will create 6 pages for you to decorate. Cut a further two 4” x 6” panels, and glue these to the front and back of the decorative spine ends to create the front and back covers.

STEP 5 // To reinforce the album spine, cut a piece of heavyweight cardstock to measure 4” x 3”. Score at half an inch from each edge on the 3” side, and glue to the front and back pages.

TWIST AND POP CARD

STEP 1 // Die-cut the panel die, and the folding twist and pop mechanism.

STEP 2 // Fold and burnish the die-cut panel to create a concertina effect (with a valley fold, followed by a mountain fold, then a valley fold).

STEP 3 // Fold and burnish the two cross-shaped score lines on the twist and pop mechanism, then flip over and score and burning the vertical line. This will create the correct twist and pop movement. You will now be able to pull this base piece together easily to create a triangle at the top of the mechanism and two legs at the bottom.

STEP 4 // Place the folded die-cut panel under the first folded leg under the triangle. Glue the top leg to the top of the folded panel. Flip, and repeat with the leg at the back.

STEP 5 // Glue the twist and pop inside a folded card base (add glue to both sides of the triangle piece only). Place the triangle point up against the centre fold inside the card, close the card, and allow the glue to dry.

PRECIOUS MEMORIES ALBUM PAGES NEED TO BE 4” HIGH TO WORK WITH THE SPINE, BUT CAN BE AS LONG AS LIKE TO GIVE VARIETY TO YOUR PROJECTS, WHY NOT TRY PAGES THAT MeASURE 4” X 8”?

YOU CAN CUT A CURVED CARD BASE USING THE EDGE DIE IN THE PACK. YOUR CARD WILL NEED TO BE 4” WIDE.
